

Sexual Integrity. Healthy Relationships.

“Why is it that we know we were made for something wonderful and beautiful – a real love story – but often find ourselves stuck cleaning up after other’s mistakes and our own bad choices?”

Many women and men identify with this question. They know first hand how sex has substituted for learning more about each other’s personality, goals and character. They have seen how easy it is to turn to sex when conflict or pain arises rather than working through issues and growing together. They long for a better story.

Compassionate consultants at Care Net help women and men sort through their questions about relationships and their sexuality so they can start fresh. Care Net’s Sexual Integrity program affirms that all of us belong in a better story. We were created to love, to give life and to have real joy. Making sexual choices that will keep us whole is key.

Care Net encourages clients to work at becoming whole and healthy individuals, provides support and education to help along the way and offers Life and Hope in Jesus Christ.

Each Care Net client may choose to remain in her current story or, with support from Care Net, she may choose to begin a better story. She may begin to focus on becoming a healthy person and to treasure and reserve sex for the man who commits, on her wedding day, to love and cherish her for the rest of her life. Care Net empowers women and men to live lives of integrity in this most personal area of their lives, sexual integrity.
